CyberGhost 6.0 for Windows: The complete one-click VPN solution to enjoy security and privacy

Bucharest, September 9th, 2016 – *CyberGhost launches the complete VPN service for both casual and experienced users.*

Anonymous surfing is still one of the biggest concerns users are facing since the famous Snowden revelations. CyberGhost VPN has incorporated various technologies to better protect users' privacy and enhance security on Windows devices. The latest version of CyberGhost VPN includes major advancements in the usability of the product designed to be easy to use meet requirements of both casual and experienced users.

CyberGhost 6.0 for Windows is a complete solution designed to cover various use scenarios adapted to the daily activities of both casual and experienced users. Access to worldwide streaming services, protection for unsecured WiFi's, amazing download speeds or even high configuration options, transform CyberGhost 6.0 into a complete VPN app.

Considering the growing number of worldwide security vulnerabilities and the diversifying attack vectors that are exposing inexperienced users to high risks, Cyberghost VPN has incorporated some unique security features to ensure a seamless online experience. Military grade encryption, anti-malware modules, and automated HTTPS redirects are some of the enhancements for a complete VPN solution.

As censorship and restrictions are on the rise in countries with non-democratic or repressive governments, the latest Windows app stays true to CyberGhost's mission to grant free connections to the uncensored internet and access to knowledge and information.

"Our highly specialized engineers have created a complete and easy to use VPN app that is unique on the market. No other VPN service will provide so many solutions in one product. We guarantee verified access to streaming services, high download speeds, real-time feedback and customizable features. The encryption technology has never been more user-friendly and easy to use for the casual users. With the new generation of CyberGhost 6.0 products we enter a new era where users have the power to choose anonymity and protection with no costs on usability."

All the features are integrated into the ready to surf profiles transforming the encryption technology into a complete and easy to use solution.

About CyberGhost

Founded 2011 in Bucharest, Romania, CyberGhost S.R.L. is the creator of one of the world's most reliable privacy and security solutions in the world. The company secures and anonymizes the online presence of over 8.5 million users across the globe. CyberGhost S.R.L. defends privacy as a basic human right, being first in the industry to publish a transparency report while building new user-oriented crypto-technology for the future.

The Company has a team of 30 consisting of a German developer team, and a group of highly motivated young IT experts located in Romania. Exceptionally experienced with internet anonymity and endeavor to work with like-minded persons, the company contributes an important part for the support of civil rights, a free society and an uncensored internet culture.

About CyberGhost VPN

CyberGhost VPN establishes a 256 Bit AES encrypted connection to the CyberGhost-network. Here the online shown and clear recognizable IP address will be masked and replaced with an innocuous one. The Windows-Client is installed fast and is very intuitive. Also available is an iOS App and the support for the native protocols PPTP, L2TP/IPSec and OpenVPN; as well as a Mac and Android Client.
